

MUHAMMAD FARIDUDDIN ATHAR

FRESH GRADUATE

Sukabumi, West Java | P: +62 895-0159-9119 | atharudin04@gmail.com

EDUCATION

INDONESIA UNIVERSITY OF EDUCATION

Bachelor of Engineering

Major in Mechatronics and Artificial Intelligence; Minors in Artificial Intelligence

Cumulative GPA: 3.59/4.0;

Relevant Coursework: Object-Oriented Programming; Algorithms; Artificial Intelligence; Deep Learning; Machine Learning.

Undergraduate Thesis: Development of a Web-Based Deepfake Video Detection System Using a Comparison of Convolutional Neural Network and Transformer Algorithms Based on Subpixel Misalignment

Purwakarta, West Java

Oct 2025

SMAN 4 SUKABUMI

Major in Natural Science (IPA)

Sukabumi, West Java

Jun 2018 - Jun 2021

INTERNSHIP EXPERIENCE

SOFTWARE ENGINEER INTERN - PT JABABEKA TBK

Kampus Merdeka - MSIB Batch 6

Observe, create, refine, and improvise projects. Developed and enhanced various solutions, including:

Cikarang, West Java

Feb 2024 - Jun 2024

AUTOMATIC EMAIL SCHEDULING SYSTEM

- Designed and implemented a system using Microsoft Power Automate, HTML, and JSON, allowing users to schedule and automatically send emails to one or multiple recipients.

DIGITALIZATION OF LETTER REQUESTS

- Developed a solution using Microsoft Power Automate, HTML, and JSON, enabling users to automatically generate and send various types of letter requests to multiple recipients.

INDEPENDENT STUDY EXPERIENCE

LASKAR AI - LINTASARTA

AI Developer Training

Laskar AI is a scholarship program by Lintasarta, Dicoding, and NVIDIA to develop AI talent through Machine Learning and Data Science training for Indonesia Gold 2045.

Online

Feb 2025 - Jul 2025

FACIAL DETECTION

- Designed and implemented Deep Learning and Web Programming 4-person team in Laskar AI
- Enabled users to know about the facial condition and treatment based on user image

Jun 2025

CLOUD COMPUTING SUPPORT - PT ORBIT FUTURE ACADEMY

AWS Training Batch 10 Offline

Study about AWS Service, Cloud Computing, Networking and Python programming

Bekasi, West Java

Oct 2024 - Des 2024

UNIVERSITY PROJECTS

WEATHER FORECAST BASED ON MACHINE LEARNING

- Designed and implemented Arduino, Web Programming, and Machine Learning in 11-person team
- Enabled users to know about the predicted weather based on user input or automatically input

Dec 2023

SIAK 2.0

- Designed a new academic information system on Figma

Jun 2023

SNAKE O LADDER

Jan 2023

- Designed and implemented Java in 5-person team with object-oriented programming
- It is a game based on snake ladder game

TWINKLING LIGHTS

Dec 2022

- Designed and implemented Arduino system in 5-person team
- Allows users to decorate their room to make it look more cute and interesting

EARLY WARNING SYSTEM

Jun 2021

- Designed and implemented C# in 4-person team
- Enabled users to know about the danger level of the volcano based on user input

ACTIVITIES

GDSC UPI (Community groups for students interested in Google developer technologies)

Purwakarta, West Java
Nov 2023 – Present

- Active member of GDSC UPI
- Participated in machine learning, cloud computing and web development training programs.

HIMATRONIKA-AI (Student association of Mechatronics and Artificial Intelligence) Member of First Commission of the Legislative Body

Purwakarta, West Java
Feb 2023 – Oct 2023

- During one period of position (one year)
- Supervise the performance of the secretary and treasurer

Staff of the Consumption Supervision

Aug 2023 - Sep 2023

- During the department's educational and training period (Metastro)
- Observe, assess and evaluate the performance of the consumption division.

Head of the Consumption Supervision

July 2023 - Aug 2023

- During the university educational and training period (Mokaku)
- Observe, assess and evaluate the performance of the consumption division.

Staff of the Consumption

Sep 2022 - Oct 2022

- During the department's educational and training period (Metapora)
- Take care of consumption at the event for participants, organizers and guests

ADDITIONAL

Hard Skills : Proficient in basic HTML, C#, C++, Java, Python, SQL, Arduino IDE, Matlab, Google Colab, VS Code, and JSON; advanced in Power Automate; intermediate skills in Canva and Figma.

Soft Skills : Easily adaptable to new environments; passionate about learning; strong communication skills.

Languages: Fluent in Indonesia; Beginner in English

Certifications & Training: DTS-Pandu Indonesia (Ministry of Communication and Information of Indonesia); DTS Game Development and Animation (Ministry of Communication and Information of Indonesia); AI with Visual Programming; ICPECE (International Conference on Primary and Early Childhood Education); PTESOL UPI (Proficiency Test of English to Speakers of Other Languages); Implications of AI and ChatGPT for Generation Z.
